

Certain members of the US Armed forces may use this form to apply for a one year exemption from the payment of vehicle license tax and registration fees. The Special Military Exemption is available one time per deployment for a worldwide contingency operation and may be applied for during the time period between the date of deployment until one year after the deployment ends or the member is released from that duty. This exemption applies to no more than two vehicles, and each vehicle requires a separate exemption form. A spouse, surviving spouse or legally designated representative may request an exemption on behalf of an owner/lessee serving on active duty, or an owner/lessee who died while serving on active duty or remains listed as missing in action. Military orders should be available upon request at the time of application for the Special Military Exemption.
